IMMUNOGENICITY ASSESMENT

Sr. No.	Molecules
1	Screening, Confirmatory assays for Antibodies against Darbepoetin (Bridging ELISA)
3	Screening, Confirmatory assays for Antibodies against Erythropoietin (Bridging ELISA)
5	Screening, Confirmatory assays for Antibodies against Ranibizumab by (Bridging ELISA)
6	Screening, Confirmatory assays for Antibodies against Rituximab (Affinity Capture and Elution based ELISA)
7	Screening, Confirmatory assays for Antibodies against Trastuzumab (Bridging ELISA)
8	Screening, Confirmatory assays for Antibodies against Denosumab (Bridging ELISA)
9	Screening, Confirmatory assays for Antibodies against Teriperatide (ELISA)
14	Screening, Confirmatory assays for Antibodies against Romiplostim (ELISA)
16	Screening, Confirmatory assays for Antibodies against FSH (ELISA)
18	*Elisa based method for determination and characterization of neutralizing antibodies against Bevacizumab in normal human serum samples
19	Elisa based method for Immunogenicity assessment of Bevacizumab in normal human serum samples

*: Developed method available
